Hi, friends!

Here's a Christmas card you can share with someone special!

Color the picture and help the animals decorate the tree. Glue a button, pompom, sequin, tiny pasta shell or sticker on the end of each ornament string. You can draw your own ornament or stick an adhesive gem stone there, too.

Do you like to decorate Christmas trees? What do you like to place on the tip top?

Fold the card on the dotted line. Now it can open and close. Draw your own picture or write a message on the inside if you'd like.

Merry Christmas from
Nawful and friends!

Tip: the card on the next page prints best on cardstock.
